

## Revolutionize Your Age Verification Experience

Discover **FTx Identity**, where innovation meets security in redefining business identity and age verification. Our advanced, intuitive solutions offer unmatched security, ensuring your business stays ahead with seamless integration and strict compliance. Experience a transformation in verification processes in-store and online with our easy-to-use platform designed to elevate your business operations efficiently and effectively.

### Streamlined and Secure Age and Identity Verification

#### 1. Registration Options

Customers can register via the retailer's app or website using their mobile device for a quick online registration.

#### 2. Verification Process

Users scan their license, take a live selfie, and their data is cross-referenced with public records to verify their age.

#### 3. In-Store Sales

Ensure compliance during checkout with advanced age verification through facial recognition, one-time passwords, or QR codes.

#### 4. Online Sales

Instantly verify customer ages with a direct API integration on any website or app, ensuring compliance by preventing sales to minors.

# Elevate Your Verification Process with Smart Solutions

## ✓ AI-Based Verification

Uses advanced AI technology for efficient and accurate identity and age verification.

## ✓ Global Document Support

Capable of verifying ID documents from around the world, making it versatile for international use.

## ✓ Easy Integration

Offers an SDK for seamless integration with existing systems, allowing businesses to incorporate the verification process into their platforms easily.

## ✓ Secure Data Handling

Employs cloud-based encrypted vaults to ensure data security and privacy.

## ✓ Compliance

Helps businesses comply with KYC (*Know Your Customer*) and AML (*Anti-Money Laundering*) regulations, reducing the risk of fraud and legal issues.

## ✓ User-Friendly

Designed to be customer-friendly, providing a smooth and efficient verification process for end users.

# Top Features of FTx Identity

Check out **FTx Identity's** solutions designed to improve onboarding speed, protect against fraud, and prevent underage sales. Our technology integrates smoothly into your system, ensuring a secure and efficient verification process that enhances your operations.

## Age & Identity Verification

Empower your customers to verify their age and identity effortlessly through our versatile platform, whether via a mobile app, online, or in-store.

## Data Extraction

Leverage Optical Character Recognition (OCR) technology to accurately extract data from ID documents, seamlessly integrating this information into KYC and compliance records.

## Proof of Verification

Keep comprehensive records of all age verification activities, complemented by insightful analytics accessible through our intuitive back-office system.

## AI-Based Verification

Benefit from enhanced verification accuracy and reduced false positives with our advanced AI and machine learning tools, ensuring reliable results.

## Identity Scan Solutions

Provide a secure and non-intrusive ID scanning experience for your customers, enhancing document validation and ensuring robust KYC compliance.

## Biometric Authentication

Utilize 3D liveness detection and selfie facial recognition to authenticate users confidently, verifying that they are who they claim to be.
